6. Officially recognised ways of acquiring the qualification

Training for the VET Certificate: Building and Grounds Maintenance Assistant lasts 2 years. Training content is usually distributed across two different learning locations: classroom instruction at a vocational school and apprenticeship training at a host company. However, depending on the VET programme, learners will also attend branch courses at a branch training centre. Professional competences required for the given occupation are decided by the sponsor of the VET programme.

- Host companies provide learners with practical skills associated with the occupation. Learners usually work an average of 4 day(s) per week.
- Vocational schools provide classroom instruction in vocational subjects and subjects falling under the category of language, communication and society (LCS). Learners usually attend classes an average of 1 day(s) per week; total number of lessons: 720.
- Branch training centres provide learners with additional skills that are intended to complement classroom instruction and apprenticeship training, total duration of branch courses: 14 days.

The qualification procedure and final examination includes the following:

- Practical project covering 8 hours
- (Written and/or verbal) testing of knowledge gained from vocational instruction covering 1.5 hours
- LCS

The calculation of the overall grade takes into account the grades obtained for individual areas of competence and the grades obtained from classroom instruction at the vocational school .

Other equivalent qualification procedures are possible.
