

Certificate Supplement

1. Legally protected title of the qualification

Automobil-Fachmann / Automobil-Fachfrau mit Fähigkeitszeugnis (FZ)

2. Translated title of the qualification

Automotive Technician

Diploma of Vocational Education and Training

3. Profile of skills and competences

Holders of this qualification perform function and system tests and maintenance work on vehicles powered by combustion engines and alternative powertrain concepts.

They also replace and repair individual vehicle systems, including chassis, engine and powertrain as well as electrical, electronic, comfort and safety systems.

Due to the broad scope of their activities, interaction with in-house workshop personnel and customers is important. Their main contacts are superiors as well as in-house and external technicians. Customers are mainly private individuals and businesses in the private and public sectors.

Their main professional competences:

- Vehicle testing and maintenance
- Replacing worn parts
- Support for operations
- System checks and repairs

4. Range of occupations accessible to the holder of the qualification

Holders of this qualification work in garages of various sizes, mostly on vehicles from different manufacturers. They perform tasks in accordance with corresponding vehicle manufacturer specifications. In doing so, they adhere to regulations and safety guidelines, internal company rules and work orders. They coordinate their activities on the basis of processes taking place before and after their own tasks, plan and manage their work activities, check and assess their own work and make use of quality management systems.

Their day-to-day work must be carried out independently and reliably, possibly in coordination with others. The various tasks are well-defined and structured, at times less so and rather simple and less complex.

Holders of this qualification are able to handle the physical and mental strain resulting from the increased workload placed on them at various times of the year.

5. Official basis of the qualification

Name and status of the national authority responsible for issuing the qualification:

- Amt für Berufsbildung und Berufsberatung (ABB), Postplatz 2, 9494 Schaan, Liechtenstein
Postadresse: Postfach 684, 9490 Vaduz, Liechtenstein
www.abb.llv.li; phone: +423 236 72 00; mail: info.abb@llv.li

Level of the qualification (national or international):

- | | |
|--|----------------|
| National Qualifications Framework for the VPET system: | Level 4 |
| European Qualifications Framework: | Level 4 |

Grading scale/Pass requirements:

- 6 = very good
- 5 = good
- 4 = satisfactory
- 3 = unsatisfactory
- 2 = poor
- 1 = unusable

Minimum passing grade: 4

Legal basis of the qualification:

- Verordnung vom 12. Dezember 2017 über die berufliche Grundbildung Automobil-Fachmann/Automobil Fachfrau mit Fähigkeitszeugnis
- Verordnung über den Nationalen Qualifikationsrahmen für Abschlüsse der Berufsbildung vom 27. August 2014 (RS 412.105.1)

6. Officially recognised ways of acquiring the qualification

Training for the Automotive Technician, VET Diploma lasts 3 years. Training content is usually distributed across two different learning locations: classroom instruction at a vocational school and apprenticeship training at a host company. However, depending on the VET programme, learners will also attend branch courses at a branch training centre. Professional competences required for the given occupation are decided by the sponsor of the VET programme.

- Host companies provide learners with practical skills associated with the occupation. Learners usually work an average of 3,5-4 day(s) per week.
- Vocational schools provide classroom instruction in vocational subjects and subjects falling under the category of language, communication and society (LCS). Learners usually attend classes an average of 1,2 day(s) per week; total number of lessons: 1120.
- Branch training centres provide learners with additional skills that are intended to complement classroom instruction and apprenticeship training, total duration of branch courses: 40 days.

The qualification procedure and final examination includes the following:

- Practical project covering 9 hours
- (Written and/or verbal) testing of knowledge gained from vocational instruction covering 3 hours
- LCS

The calculation of the overall grade takes into account the grades obtained for individual areas of competence and the grades obtained from classroom instruction at the vocational school (Practical work: 40%, Vocational subjects: 20%, LCS subjects: 20%, Average grades: 20%).

Other equivalent qualification procedures are possible.

This certificate supplement draws its legal basis in Article 4 paragraph 1 of the Ordinance of 27 August 2014 on the National Qualifications Framework for Vocational and Professional Qualifications (NQF-VPO-O, SR 412.105.1). This certificate supplement follows the model recommended by the European Parliament and Council (Decision No. 2241/2004/EC). The purpose of the certificate supplement is to provide sufficient data to improve the international transparency and fair professional recognition of qualifications (diplomas, certificates etc.). It describes the nature, level, context, content and type of training and education pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. The certificate supplement is free from value judgements, equivalence statements or recommendations on recognition.
